

Layout of the ANALYSIS on the ClinEpiDB platform

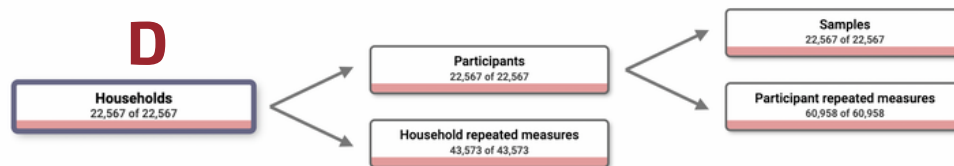

Explore data, learn about the study design, and more using an **analysis**. The following is an overview of the layout of this page.

GEMS1 Case Control **A**

C + NEW ANALYSIS MY ANALYSES

Unnamed Analysis **B**

E View study details Browse and subset Visualize Notes

A. **Title** of the dataset

B. **Analysis name**- this can be edited

C. Links to **New Analysis** and **My Analyses**, which are previously made analyses on this dataset

D. The **Dataset Diagram**

E. **Four tabs** that you can toggle between:

View study details: Learn about the context and methodology of the dataset

Browse and subset: Browse through all variables in the dataset and filter or subset data

Visualize: Make plots and explore associations between variables

Record notes: Save notes on your analysis

A note on **saving your work**: If you would like to save your analysis, make a free account by clicking the **Register** link under the **Guest** icon (top right of home page). It only takes a minute to register! Once you are logged in, your analysis is automatically saved.

Please contact **help@clinepidb.org** with feedback or questions!
